L. Delafontaine and H. Louis, with the help of GitHub Copilot.

This work is licensed under the [CC BY-SA 4.0](#) license.

What have you learned?

- The basics of Git, GitHub and Markdown
- The basics of Java, IntelliJ IDEA and Maven with external dependencies
- The different types of Java IOs and their use cases (📝 vs. 🤖)
- The theory of Docker and Docker Compose

What have you accomplished?

- You have a presence on GitHub
- You have built and shared a small CLI application for others to discover and try
- You can process files for your own needs
- All of this using the best practices!

Feedback

Your feedback helps us know **what what you liked and what you disliked** in your learning experience. **The feedback is anonymous.**

We would be very grateful if you could take a few minutes to fill it. **Thank you!**
